Three barrack buildings, 200' x 45', and three barrack buildings, 140' x 45', are under construction at 028613.

The road running southward from Pai-kong terminates at Chen-hai-ch'eng (987355). This road, extending from the ferry at Tung-pien (946537) to Chen-hai-ch'eng, appears to have been constructed for the purpose of serving military installations between the two points.

A 500' section of the causeway shows moderate slumping. A 250' section of the causeway, probably damaged by slumping, is undergoing repairs. Motor vehicle traffic is restricted to one lane in the vicinity of the repair work.

A one lane road has been constructed from 523667 to 523657. Artillery positions may be under construction at 523657.
